presented with support from Pfizer

The Practice of Cultural Awareness, Knowledge and Humility in Cancer Care with Dr. Katherine Y. Tossas

Thursday, April 13, 5 to 6 p.m.

Webinar open to anyone working with the oncology population.

This program highlights the influence of culture on patients, health care providers, and institutions across the cancer care continuum; shares practical approaches for HCPs to recognize and respect how patients' culture, life experiences, and community conditions may play a role in cancer care, decision-making, and outcomes; and provides insight regarding cultural nuances while acknowledging that cultures are not monolithic.
