

# CANCER SUPPORT FOR NEVADA

Navigating a cancer diagnosis is complex. If you or a family member is dealing with a cancer diagnosis, is in treatment, or is a cancer survivor, we can help.

## ThriveNV Provides

- ✓ Support to you and your family
- ✓ Someone to call during and after treatment to answer questions
- ✓ Connection to cancer screening and help with scheduling screening services
- ✓ Resources to overcome challenges to screening or treatment
- ✓ Navigation services for Nevadans who do not already have access to a patient navigator
- ✓ Information about a cancer diagnosis, medical terms, standards of care, questions to ask doctors, and who is part of the care team

# WHEN TO CONTACT A NAVIGATOR...

- » You or your family need to talk to someone about a cancer diagnosis
- » You live in a community that has no patient navigation support
- » You need help finding resources in your community
- » You cancel medical appointments because of lack of resources
- » You need help understanding the healthcare system
- » You are a caregiver and need help taking care of yourself and your loved one
- » You are worried about medical bills and need help locating resources
